PALLARÈS

Catalog 2026

Making history since 1917

A city known for its knives for centuries, Solsona had up to twenty different workshops in the old quarter from the 16th century until the beginning of the 20th. They gradually disappeared until the only workshop left was Pallarès, which was founded in 1917 by the brothers Lluís and Carles Pallarès i Canal.

They started the business by producing horn handled razors, which soon became very well-known throughout Catalonia. Later, with the post-war migratory movement, the fame of the “pallaresa” spread to the rest of the peninsula. Over the years, old production techniques were replaced, and modernization made it possible to offer a wider range of razors and knives with new materials, many of which are still being manufactured.

Today, the third generation is working to maintain the high quality of their products by adapting to new technologies without sacrificing artisanal techniques, such as hand-sharpening. Pallarès products are aimed at diverse markets, therefore, the catalog ranges from all sorts of knives and razors to agricultural tools and other items intended for manual labor.

TYPE OF STEEL

Carbon Steel (C.S.) is the original material, so it is more resistant, the edge lasts longer and it is much easier to sharpen. Furthermore, if not taken care of, it can rust. To prevent rusting, it is recommended to dry the blade after each use and, if you want to keep it unused for a while, you can put a layer of oil on it, as this does not allow oxygen to come into contact with the blade and rust.

Stainless Steel (S.S.), which comes from adding chromium and nickel to Carbon Steel, does not rust as easily, but being a less resistant material, it loses its edge sooner and is more difficult to sharpen.

Even if the blade is made of Stainless Steel, if we clean it with very abrasive soaps (salt or soda), small rust spots may appear. The reason for this is that the quality of the steel used is very high so that it has the maximum possible hardness.

It is recommended not to wash knives in the dishwasher, regardless of the blade.

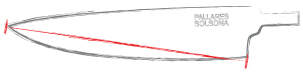

■ COMUN POCKETKNIFE

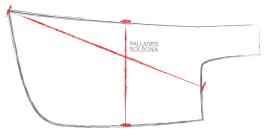

The Comun pocketknife is so named because it is one of the most widely used knives in the world. Its blade, shaped like a laurel leaf, offers reliability and versatility when cutting. Today, the four original sizes (No. 00 - 7 cm | No. 0 - 8 cm | No. 1 - 9 cm | No. 2 - 10 cm), which are based on the length of the blade, are manufactured in Carbon Steel (C.S.) and Stainless Steel (S.S.).

■ HOW TO MEASURE?

The measurement that appears in the description of the knives always refers to the length of the blade, that is to say, the distance between the end and the base of the blade. On the other hand, cutting knives are measured from two angles. The first one diagonally and the second one vertically, as can be seen marked in red in the image:

Knife blade

Cleaver blade

■ MAINTENANCE

To keep both the blade and the handle in good condition, it is recommended to keep the knife clean and dry. After use, it is as important to clean it as to dry it immediately. It is also advisable not to leave the knife in water if it has a wooden handle, as it can swell and then, when it dries, contract, which will cause movement in the wood that causes the handle to crack.

Knives with rubber, polyethylene, phenolcraft or mother-of-pearl handles, being made of plastic/ resin, can go in the dishwasher, although it is not recommended.

KEN ONION MK.2 - ELITE

Electric sharpener.

The combination of the Ken Onion MK.2 sharpener and its Blade Grinding Attachment offers more power, control, and versatility.

With a wider range of angles, from 10° to 35°, and three convex cutting profiles, the sharpening head ensures precise and repeatable sharpening from 15° to 30°.

Ref.	Includes		€	
006.022.030	2 belts P120 ***(x-C)*** 2 belts X65 ***(C)*** - *220* 2 belts X22 ***(M)*** - *1000* 2 belts X4 ***(F)*** - *3000*	1 belt 6000 ***(x-F)*** 1 belt 12000 ***(x-F)*** 1 belt tela ***(x-F)***		1

BLADE GRINDING ATTACHMENT KO

Accessory for Ken Onion.

Incorporating this accessory achieves a wider sharpening area with angles from 10° to 35° (at intervals of 1°) and greater control over sharpening.

Ken Onion sharpening machine is required (sale separately).

Ref.	Includes		€	
006.022.002	1 belt P120 ***(x-C)*** 1 belt X65 ***(C)*** - *220* 1 belt X22 ***(M)*** - *1000*	1 belt X4 ***(F)*** - *3000* 1 belt 6000 ***(x-F)***		1

BLADE GRINDING ATTACHMENT KO MK.2

Accessory for the Ken Onion MK.2 sharpener.

This accessory provides a wider sharpening area with angles from 10° to 35° (in 1° increments) and greater control over the sharpening process.

Requires the Ken Onion MK.2 sharpening machine (sold separately).

Ref.	Includes		€	
006.022.080	1 belt P120 ***(x-C)*** 1 belt X65 ***(C)*** - *220* 1 belt X22 ***(M)*** - *1000*	1 belt X4 ***(F)*** - *3000* 1 belt 12000 ***(x-F)***		1

PRECISION ADJUST KNIFE SHARPENER

Manual sharpener.

With 3 adjustable plates from 15° to 30° (at intervals of 1°) to have more control and precision.

Only by pressing a button while sharpening, turn 180°.

Ref.	Includes	€	
006.023.003	1 diamond plate 320 *(C)* 1 diamond plate 600 *(F)* 1 ceramic plate *(x-F)*		1

PROFESSIONAL PRECISION ADJUST PRO

Manual sharpener.

With a continuous sharpening angle of 15° to 30° digitally adjustable to have the total precision of sharpening.

Ref.	Includes		€	
006.024.001	1 diamond 220 *(C)* 1 diamond 320 *(C)* 1 diamond 400 *(C)* 1 diamond 600 *(F)*	1 diamond 800 *(F)* 1 ceramic *(x-F)* 1 leather *(x-F)*		1

PROFESSIONAL PRECISION ADJUST PRO - ELITE

Manual sharpener.

This is the much better equipped Professional Precision Adjust PRO sharpener. Designed for knife enthusiasts, it consists of 10 abrasives, a polishing compound, and a carrying case so you can take it anywhere.

Ref.	Includes		€	
006.024.002	1 diamond 220 *(C)* 1 diamond 320 *(C)* 1 diamond 400 *(C)* 1 diamond 600 *(F)* 1 diamond 800 *(F)*	1 ceramic *(x-F)* 1 diamond 1200 *(x-F)* 1 diamond 2000 *(x-F)* 1 diamond 3000 *(x-F)* 1 leather *(x-F)*		1

GUIDED SHARPENING SYSTEM

Manual sharpener.

The innovative Pivot-Response® system follows the curvature of the blade as it sharpens, leaving a fine cut on the entire blade.

Easy to use thanks to 17° and 20° guides.

Ref.	Includes	€	
006.022.020	1 diamond plate 320 ***(C)*** 1 diamond plate 600 ***(F)*** 1 ceramic plate ***(x-F)***		1

PIVOT KNIFE SHARPENER

Manual sharpener.

Small and compact (6 x 7 cm), for sharpening all types of cutting tools quickly and easily anywhere.

Ref.	Includes	€

GUIDED FIELD SHARPENER (5 FACES)

Manual sharpener.

Five faces of different grains in only 17 cm is what characterizes it.

It consists of a 220 (C) diamond plate, another 600 (F) diamond, two round ceramic faces, and one leather.

You will be able to sharpen in different inclinations, 20° in diamond plates and 25° in ceramic plates.

Ref.	Includes		€	
006.021.021	1 diamond 220 ***(C)*** 1 diamond 600 ***(F)***	2 ceramic ***(x-F)*** 1 leather ***(x-F)***		1

PIVOT PRO KNIFE SHARPENER

Manual sharpener.

For sharpening all types of cutting tools, this is the most complete sharpener in the Pivot series.

Measuring only 19 cm long and 7.5 cm wide, it is easy to carry around.

Ref.	Includes	€	
006.023.002	1 V carbur convex 1 V ceramic 1 diamond plate 320 ***(C)***		1

ROLLING KNIFE SHARPENER

Manual sharpener.

Special for kitchen knives, it consists of a magnetic angle block (15°, 17°, 20°, and 25°) and three abrasive disks of different grains for a sharpened with a perfect finish.

Its own packaging can serve as an organizer in the kitchen drawers.

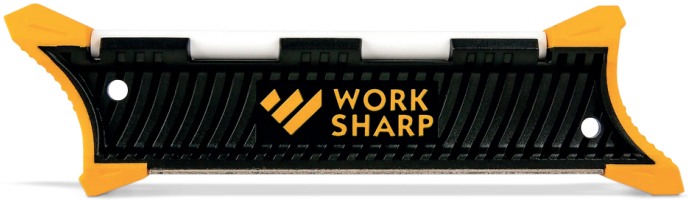

Ref.	Includes	€	
006.025.000	1 diamond disc 320 ***(C)*** 1 diamond disc 600 ***(F)*** 1 disc ceramic ***(x-F)***		1

POCKET KNIFE SHARPENER

Manual grinder.

The perfect grinder to always carry with you.

It is small and lightweight, only 15 cm long and weighing 51 grams.

Ref.	Includes	€	
006.007.500	1 diamond 320 ***(C)*** 1 ceramic ***(x-F)***		1

PROFESSIONAL SINGLE PHASE SHARPENER 120 V

Electric grinder.

Its cooled belt system prevents steel particles released during sharpening from remaining in suspension.

It features belt cooling via a 50 W electric pump (submerged in a 4-liter tank), different types of polishers or grinding wheels (including for serrating knives), and a stainless steel chassis. It also has two work areas:

1- Area for sharpening with a wet abrasive belt (50 x 950 mm) to prevent the knife from overheating.

2- Finishing area (satin finish, serrated edges, sharpening of scissors and circular discs) with a 200 mm diameter grinding wheel.
